INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and those charged with governance of the
Tehama County Resource Conservation District
Red Bluff, California

I have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Tehama County Resource Conservation District as of and for the year then ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Tehama County Resource Conservation District's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with government auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Tehama County Resource Conservation District as of June 30, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated September 28, 2009, on my consideration of the Tehama County Resource Conservation District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

The management's discussion and analysis and budgetary comparison information on pages 4 through 7 and 17 through 19 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 28, 2009

Our discussion and analysis of the Tehama County Resource Conservation District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2009.

BACKGROUND

The Tehama County Resource Conservation District (District) was re-organized on July 1, 1987 as a consolidation of Corning, Cottonwood and Lassen View Resource Conservation District's under Division 9 of the Public Resource Code of the State of California to assist landowners and managers within Tehama County in an effort to solve resource problems. The District's purpose is to develop and carry out natural resource conservation programs and administer grants and contracts. The District is governed by a Board of Directors that is selected pursuant to Government Code Section 1780. The Board of Directors performed managerial duties. The basic operations of the District are financed by federal and state pass-through grants.

FINANCIAL HIGHLIGHTS

- The District's net assets for all governmental activities were \$73,565 at June 30, 2009, which is a 16% increase from fiscal year ending June 30, 2008.
- The District's major sources of revenue are State and local agencies (47.0%) and Federal (25.0%) grants which comprise approximately 72% of total revenue. The District's net assets increased \$10,376.
- The District implemented 68% of the individual resource conservation projects with District staff and direct field related expenses (excluding depreciation) for a total of \$267,011 and outside contractors of \$85,059 (22% of expenses).
- The resources available (revenue) for appropriations (expenditures) were \$2,489 less than budgeted for in the general fund primarily due to the decrease in State funding because of a budget crisis, offset by an increase in fee-for-service revenue. Additionally, actual expenditures were below revised budgeted amounts primarily due to reductions in working hours for employees and the District not hiring outside contractors. The net impact was that the actual result for the fiscal year was a \$22,694 favorable variance.
- The general fund reported an excess this year of \$23,702, when combined with an excess last year of \$57,886, resulting in a total fund balance at fiscal year-end of \$81,588.

USING THIS ANNUAL REPORT

This annual Report consists of a series of financial information that includes:

- The Statement of Net Assets and Governmental Funds Balance Sheet found on page 8, presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets.
- The Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances, found on page 10, presents information showing how the District's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.
- The Notes to Financial Statements, starting on page 12, provide additional information that is essential to a full understanding of the data provided in the basic financial statements.
- The General Fund Budgetary Comparison Schedule, found on page 19, reviews all revenues and expenditures for the fiscal year, comparing our final 08/09 budget to fiscal year end actual numbers. (See Table 3)

REPORTING ON THE DISTRICT AS A WHOLE

Our analysis of the District as a whole begins on page 4. One of the most important questions asked about the District's finances is, "Is the District, as a whole, better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities (pages 8 - 11) reports information about the District as a whole and about its activities in a way that will help answer this question. The analysis of the District as a whole includes all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash was received or paid.

These two statements report the District's net assets and changes. The change in the District's net assets measures the District's financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. Our analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the District's governmental activities.

Condensed Financial Information

Table 1	Net Assets (In Dollars)	<u>2007/2008</u>	<u>2008/2009</u>
	Current & other assets	\$ 121,916	\$ 179,576
	Capital assets, net of depreciation	3,026	4,722
	Total Assets	<u>\$ 124,942</u>	<u>\$ 184,298</u>
	Current liabilities	<u>61,753</u>	<u>110,733</u>
	Total Liabilities	<u>\$ 61,753</u>	<u>\$ 110,733</u>

Net assets:		
Investment in capital assets, net of related debt	3,026	4,722
Unrestricted	<u>60,163</u>	<u>68,843</u>
Total Net Assets	<u>\$ 63,189</u>	<u>\$ 73,565</u>

Table 2 Change in Net Assets (in Dollars)

	<u>2007/2008</u>	<u>2008/2009</u>
Total operating revenues	\$ 420,404	\$ 388,413
Total operating expenses	<u>(446,320)</u>	<u>(391,322)</u>
Net operating excess (deficiency)	(25,916)	(2,909)
Total non-operating revenues – General	<u>21,621</u>	<u>13,285</u>
Change in net assets	<u>\$ (4,295)</u>	<u>\$ 10,376</u>

Budgetary Highlights and Budgetary Comparison (See Table 3)

Over the course of the year, the Board of Directors reviewed the District’s general fund budget three times and approved a final revised budget on May 22, 2009.

Table 3 Actual Compared to Budget (in Dollars)

	<u>Budgeted Amounts</u>		<u>Actual Amounts</u>	Variance with
	<u>Original</u>	<u>Final</u>		Final Budget
				Positive
				(Negative)
Operating revenues	\$ 417,691	\$ 417,691	\$ 371,917	\$ (45,774)
Operating expenses	<u>(416,683)</u>	<u>(416,683)</u>	<u>(391,500)</u>	<u>25,183</u>
Net operating excess (deficiency)	1,008	1,008	(19,583)	20,591
Non-operating revenue	0	0	43,285	43,285
Other financing sources (uses)	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Net excess of revenues over expenditures	<u>\$ 1,008</u>	<u>\$ 1,008</u>	<u>\$ 23,702</u>	<u>\$ 22,694</u>

The primary reason for the variance in revenues, in a negative manner, is due to over budgeting of State revenue and the under-budgeting of fee-for-service revenue. The primary reason for over budgeting expenditures was due to the District reducing operations due to the State’s fiscal crisis.

Capital Asset and Debt Administration

Capital Assets

At fiscal year end June 30, 2009, the District had \$4,722 invested in capital assets net of depreciation (see Table 4 below). For more detailed information about the District's capital assets, please refer to Notes 1 and 3 to the Financial Statements.

Table 4 Capital Assets as Year-End (Net of Depreciation, in Dollars)

	<u>2007/2008</u>	<u>2008/2009</u>
Computer equipment	<u>3,026</u>	<u>4,722</u>
Total capital assets, net	<u>\$ 3,026</u>	<u>\$ 4,722</u>

Debt

The District secured a short-term loan with the Tehama County Flood Control and Water Conservation District, dated April 28, 2009, and is due in full no later than December 31, 2009 together with accrued interest at a variable interest rate of 2.15%, which is adjusted quarterly at the same interest rate paid to local governments who pool their deposits with the County. The proceeds were used by the District to perform Northern Sacramento Valley Mobile Irrigation Lab services. The balance at June 30, 2009 was \$30,000.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District expects to restore operations to historic levels by moving towards more federal grants and additional fee-for-service work. For the fiscal year 2009-2010 original budget, the District's requirements for staffing will increase and the use of outside contractors will also increase slightly.

The effect of a national and statewide economic downturn will have an effect on future State grants. The District is reducing its dependence on State grants due to the State's fiscal crisis and the State's inability to reimburse the District on a timely basis.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and agencies with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Manager at 2 Sutter Street Suite D, Red Bluff CA 96080, (530) 527-3013, x 114.

Change in Net Assets of Governmental Activities	\$	<u>10,376</u>

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Tehama County Resource Conservation District (District) was re-organized on July 1, 1987 as a consolidation of Corning, Cottonwood and Lassen View Resource Conservation District's under Division 9 of the Public Resource Code of the State of California to assist landowners and managers within Tehama County in an effort to solve resource problems. The District's purpose is to develop and carry out natural resource conservation programs and administer grants and contracts. The District is governed by a Board of Directors that is selected pursuant to Government Code Section 1780. The Board of Directors performed managerial duties. The basic operations of the District are financed by federal and state pass-through grants. In the Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balance, these operations are reflected in the General Fund.

The District has adopted the financial reporting provisions of GASB Statement No. 34, including the necessary supplemental information under these provisions.

The accompanying statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The financial statements include all organizations, activities, and functions that comprise the District. Component units are legally separate entities for which the District (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either 1) the District's ability to impose its will over the organization or 2) the potential that the organization will provide a financial benefit to, or impose a financial burden on the District. Using these criteria, the District has no component units.

B. Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on the primary government (District). For the most part, the effect of interfund activity has been removed from these statements. The District only uses governmental activities, which normally are supported by Federal and State pass-through grants or cost-reimbursement contracts.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues consist of Federal and State pass-through grants or cost-reimbursement contracts and charges for services rendered by the District. Interest from investments and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The District's funds are organized into one major category: governmental and reflect those funds through which all of the governmental functions of the District are financed. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

The following is the District's major governmental fund type:

- The General Operating Fund of the District, accounts for all financial resources of the District that are not required to be accounted for in another fund.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The current financial resources measurement focus and the modified accrual basis of accounting are used by all governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available).

"Measurable" means the amount of the transaction can be determined and "available" means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District's revenues, charges for services, operating grants and use of money are accrued when their receipt occurs within sixty (60) days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, if measurable, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured.

The major source of revenue for the District is from non-exchange transactions in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, including Federal and State grants as discussed below:

Federal and State Grant Revenue

Grant revenue is recognized when program expenditures are incurred in accordance with program guidelines. Such revenue is subject to review by the funding agency and may result in disallowance in subsequent periods.

The district reports deferred revenue on its combined balance sheet per GASB 33. As revenue is recognized monthly based on program expenditures, the liability for deferred revenue is removed from the balance sheet. This process prevents the District from recognizing revenue that would possibly have to be returned to the agency at the end of the grant period.

Net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through enabling legislation.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Investments

The District cash is in a checking account with the County of Tehama. The Tehama County Treasury is an external investment pool for the District and the District is considered an involuntary participant. State statutes authorize the District and County to invest its cash surplus in obligations of the U.S. Treasury, agencies, and instrumentalities, corporate bonds, medium term notes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund.

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Participant's equity in the investment pool is determined by the dollar amount of participant's deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on the amortized cost basis. Amortized premiums and accreted discounts, accrued interest and realized gains and losses, net of expenses, are apportioned to pool participants every quarter based on the participant's average daily cash balance at quarter end in relation to the total pool investments. This method differs from the fair value method used to value investments in these financial statements. In these financial statements, the fair value of the District's investments in the pool was based on unaudited quoted market values as provided by the County Treasurer. The pool has not provided or obtained any legally binding guarantees during the period to support the value of investments.

The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value.

E. Due from Other Governments

In the government-wide statements, due from other governments consist of all federal and state grants and awards revenue earned at year-end and not yet received as of June 30, 2009. Allowance for uncollectible receivables, if any, are based upon historical trends and the periodic aging of receivables.

In the fund financial statements, material receivables in the governmental funds include revenue accruals since they are both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available.

F. Reservations/Designations of Ending Fund Balance

Reservations of the ending fund balance indicate the portions of fund equity that are not available for appropriation, or the amounts that are legally segregated for a specific future use.

Designated fund balance indicates that portion of the fund balance that is identified by management for utilization in a future period, but that intent is subject to change.

The District had no reservations or designations of fund balance at June 30, 2009.

G. Capital Assets

Capital assets purchased by governmental funds are recorded at historical cost or estimated historical cost when original cost is not available. Donated capital assets are recorded at estimated fair market value on the date donated. The district capitalizes assets with an original cost or donated fair market value of \$1,000 or more and an estimated useful life of more than two years.

In the government-wide financial statements, property, plant and equipment are accounted for as capital assets. Depreciation of capital assets is computed and recorded by the straight-line method as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Computer Equipment	3 years
Office Furniture	10 years

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

H. Unearned Revenue

Unearned revenue is recorded for assets recognized in connection with a transaction before the earnings process is complete. Those assets are offset by a corresponding liability for unearned revenue.

I. Leave Policies/Compensated Absences and Post-Employment Benefits

The District's policy regarding vacation is to permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as a non-current liability in the government-wide statements.

J. Due to Other Governments

Due to Other Governments represents a short-term loan from the Tehama County Flood Control and Water Conservation District to assist the District with performing Northern Sacramento Valley Mobile Irrigation Lab services.

K. Allocation of Employee Benefits and Indirect Costs

The District's Employee Benefits and Indirect Costs are allocated based upon actual expenditures to all grants in accordance with the Office of Management and Budget Circular A-87. The District's employee benefits are allocated to grant projects as a percentage of the District's direct labor costs. Indirect costs necessary to sustain overall operations are allocated as a percentage of total allowable direct costs charged to grant projects. Contributions to indirect costs represent revenues that offset certain costs included in the Indirect Cost Pool.

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

M. Net Assets/Fund Balance

In the government-wide statements, Net Assets are the difference between assets and liabilities. Net assets invested in capital assets are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are legal limitations imposed on their use by District legislation or external restrictions by other governments, creditors or grantors. All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt" are classified as unrestricted.

Governmental fund equity is classified as fund balance.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments of the District at June 30, 2009 consisted of the following:

Tehama County Treasurer's Pool	<u>\$ 11,074</u>
--------------------------------	------------------

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 3 – CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2009 are as follows:

	Balance July 1, 2008	Additions	Deletions	Balance June 30, 2009
Other capital assets being depreciated:				
Computer & Technical Equipment	\$ 7,262	\$ 4,495	\$ -	\$ 11,757
Office Furniture	-	1,160	-	1,160
Total other capital assets being depreciated	<u>7,262</u>	<u>5,655</u>	<u>-</u>	<u>12,917</u>
Less: accumulated depreciation for:				
Computer & Technical Equipment	4,236	3,857	-	8,093
Office Furniture	-	102	-	102
Total accumulated depreciation	<u>4,236</u>	<u>3,959</u>	<u>-</u>	<u>8,195</u>
Total other capital assets being depreciated, net	<u>\$ 3,026</u>	<u>\$ 1,696</u>	<u>\$ -</u>	<u>\$ 4,722</u>

NOTE 4 – CHANGES IN NON-CURRENT LIABILITIES

A summary of the non-current debt transactions for the year ended June 30, 2009, is presented below:

	Balance July 1, 2008	Increases	Reductions	Balance June 30, 2009	Due in one year
Due from Other Governments	\$ -	\$ 30,000	\$ -	\$ 30,000	\$ 30,000
Compensated Absences	<u>9,273</u>	<u>1,518</u>	<u>-</u>	<u>10,791</u>	<u>-</u>
Total	<u>\$ 9,273</u>	<u>\$ 31,518</u>	<u>\$ -</u>	<u>\$ 40,791</u>	<u>\$ 30,000</u>

The District's due from other Government's consist of a short-term loan agreement with the Tehama County Flood Control and Water Conservation District, dated April 28, 2009 and is due in full no later than December 31, 2009 together with accrued interest at a variable interest rate of 2.15%, which is adjusted quarterly at the same interest rate paid to local governments who pool their deposits with the County. The proceeds were used by the District to perform Northern Sacramento Valley Mobile Irrigation Lab services. The balance at June 30, 2009 was \$ 30,000.

Debt service requirements at June 30, 2009, were as follows:

Fiscal Year Ending June 30,	Principal	Interest	Total
2010	<u>\$ 30,000</u>	<u>\$ 430</u>	<u>\$ 30,430</u>
Totals	<u>\$ 30,000</u>	<u>\$ 430</u>	<u>\$ 30,430</u>

Tehama County Resource Conservation District
Notes to the Financial Statements
June 30, 2009

NOTE 4 – CHANGES IN NON-CURRENT LIABILITIES (Continued)

Compensated absences consist of accrued vacation at June 30, 2009. The District's full-time employees accrue vacation hours every two weeks based on actual hours worked. The District's part-time employees' accrual is pro-rated based on the number of hours worked. The compensated absences accrual for the fiscal year ending June 30, 2009 is \$10,791.

NOTE 5 – DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all permanent District employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The District contribution to the plan for the year ended June 30, 2009 was \$4,964.

NOTE 6 – CONTINGENT LIABILITIES

The District has received federal, state, and other local government grants for specific purposes that are subject to review and audit by the federal and state governments. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

NOTE 7 – CASH OVERDRAFT

The District is permitted to borrow up to \$30,000 from Tehama County at the same interest rate paid to local governments who pool their deposits with the County. The ability to borrow funds is effective from July 1 to April 1 of each fiscal year.

NOTE 8 – DONATED EXPENSES

The Natural Resource Conservation Service (NRCS) provides office space and vehicles to the District without charge. The fair market value of the donated office space is \$9,600 and value for the use of the vehicles is \$2,849 for the year ended June 20, 2009.

Tehama County Resource Conservation District
Note to the Required Supplementary Information
June 30, 2009

A. BUDGETARY BASIS OF ACCOUNTING

The District follows these procedures annually in establishing the budgetary data reflected in the financial statements:

1. The Board of Directors reviews the proposed budget at regularly scheduled meetings, which are open to the public. The Board also conducts a public hearing on the proposed budget to obtain comments from interested persons.
2. Prior to July 1, the budget is adopted through the passage of a resolution.
3. From the effective date of the budget, the amounts stated therein, as proposed expenditures become appropriations. The Board of Directors may amend the budget by motion during the fiscal year.

Formal budgetary integration is employed as a management control device during the year. The District presents a comparison of annual budgets to actual results for the General Fund. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America.

The District does not use encumbrance accounting, under which purchase orders, contracts and other commitments for expenditure of monies are recorded in order to reserve that portion of the applicable appropriation.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors and those charged with governance of the
Tehama County Resource Conservation District
Red Bluff, California

I have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Tehama County Resource Conservation District as of and for the year then ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued my report thereon dated September 28, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing my audit, I considered Tehama County Resource Conservation District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tehama County Resource Conservation District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Tehama County Resource Conservation District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Tehama County Resource Conservation District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Tehama County Resource Conservation District's financial statements that is more than inconsequential will not be prevented or detected by the Tehama County Resource Conservation District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Tehama County Resource Conservation District's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tehama County Resource Conservation District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

I noted certain matters involving internal control and its operation that I reported to management of Tehama County Resource Conservation District, in a separate letter dated September 28, 2009.

Tehama County Resource Conservation District's response to the findings identified in my audit is described in the accompanying schedule of findings and responses. I did not audit Tehama County Resource Conservation District's response and, accordingly, I express no opinion on it.

This report is intended solely for the information and use of management, the audit committee, Tehama County Auditor-Controller, and federal awarding agencies and pass-through entities (if applicable) and is not intended to be and should not be used by anyone other than these specified parties.
